

California OES Weather Threat Briefing

Saturday, November 14, 2020
9:00 AM PDT

- **Day 1 (Saturday):** Strong, gusty winds are expected portions of northern and inland CA this afternoon through overnight. Rain and mountain snow along the northern CA/OR border today will spread south overnight across much of NW CA.

Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

11/14/20 - 11/20/20

Saturday-Sunday

- Moderate rain, accumulating mountain snowfall, and strong, gusty winds are all possible across northern CA
 - No significant burn scar impacts currently expected, with largely beneficial rainfall
 - The strongest winds are expected in northwest and northeast California, including portions of Del Norte, Siskiyou and Modoc counties, with sustained southwest winds of 20-30 mph and gusts up to 50-60 mph, beginning Saturday afternoon and continuing into early Sunday morning
 - The strongest winds could damage trees and power lines, and will impact travel, especially for high profile vehicles

Monday-Thursday

- Generally drier weather looks to develop across much of the state Monday, though storms could continue to move across the California/Oregon border
- Elevated fire weather concerns are possible across Southern Region Sunday through Tuesday due to gusty winds and low relative humidity
- Another storm is possible Tuesday through Thursday across northern and central California
